My Strategy to Retain Business is...

James L. Bellis, Jr., President, Tree-Tech, Inc.

"My strategy to retain business is by focusing on customer service at all stages of the business transaction. We do this by building personal relationships with our clients, introducing them to our work crews, checking up on each job throughout the day, and by following up on each job at the end prior to sending the invoice. Our office is staffed by knowledgeable, passionate personnel, whose total focus is the customer"

About Tree-Tech, Inc.

Tree-Tech is a marketer of tree care and maintenance services, with over 30 years of experience. Staffed with certified arborist and up to date equipment. Tree-Tech provides tree trimming and removal work throughout Essex County, the City of Newark and beyond.
