

COVID-19 Antibody Testing For Your Employees

NJ Primary Care

When you are infected with the virus that causes COVID-19, you may or may not have symptoms. Over time, your body produces antibodies to the virus, even if you are asymptomatic. Testing identifies who developed antibodies, helping to identify who has been exposed to the virus

AVAILABLE TESTS

Fast Screening Finger Prick Test – Immediate Results
Blood Test – Tests for 3 Antibodies: IgM, IgG and IgA

TESTING LOCATIONS

Same Day Testing at Our Office
On-Site Testing Scheduled at Your Office

COVID-19 TESTING SAVES LIVES
Schedule Your Appointment Today

LOCATION

Harborside Plaza 2, suite 145

Phone: (201) 360-0782

NJ Primary Care

STOP THE SPREAD:

- ✓ Stay at home if possible
- ✓ Keep away from others who are sick
- ✓ Limit close contact with others
- ✓ Wash your hands often
