

We're Here to Help You Safely Re-Open

In response to the hard hitting pandemic that is COVID-19, NJ Primary Care is prepared to aid offices in any endeavors regarding reopening. Below is a list of services we hope to provide.

- Onsite evaluation by healthcare providers in order to evaluate the readiness of an office for COVID-19
- Onsite rapid COVID-19 testing, of which results will be available in 15 minutes time.
- In office testing and evaluation
- Telemedicine visits for individual employees in order to gauge any chances of exposure

Feel free to contact us at any time. Information below regarding the test.

Kind regards,
Dr. Deval Gadhvi MD
